Westhill Central School District
District-wide Safety Plan

INTRODUCTION

District-wide Safety Plan: This District wide safety plan has been developed to comply with the mandates of the Safe Schools Against Violence in Education Act (“Project SAVE”) and the Regulations of the Commissioner of Education at 8 NYCRR Section 155.17(c). This plan shall be reviewed on an annual basis on or before September 1st of each year.

Board of Education Approval: In accordance with Board of Education policy 5681 School Safety Plans, the Board of Education appointed a district wide school safety team. The district-wide school safety team is comprised of representatives from administration, faculty, support staff, school safety personnel, OCM BOCES Health & Safety, and other individuals. The district-wide school safety team reviewed the school safety plan. The school safety plan provides standard procedures to guide staff and students of the Westhill Central School District when responding to an emergency. It also sets forth the required drills to keep staff and students familiar with the standard response procedures. This plan was adopted by the Board of Education on August 26, 2024. Building level plans will be submitted to the State Education Department on, or before October 1, 2024 as required by 8 NYCRR 155.17 School Safety Plans.

Scope of Plan: Emergency situations can range from man-made problems such as power outages, fires and bomb threats to natural disasters like blizzards and floods, and may present highly dangerous situations or mere inconveniences. In an emergency situation, the District’s priorities are first the protection of life, then preservation of property, and restoration to normal activities. This Plan and the Building Level Emergency Response Plans describe procedures for a variety of emergencies. Obviously, no plan can cover all possible emergencies. Therefore, District officials are to use their judgment and discretion in responding to an emergency in a manner consistent with the provisions of this Plan and the applicable school Building Level Emergency Response Plan in a manner that will minimize loss of life, personal injury and property damage. Project SAVE requires that this Plan include policies and procedures on several prescribed topics. In some instances, only a general policy on a prescribed topic is described for the District as a whole. Specific emergency responses to various contingencies (i.e. bomb threats and dangerous persons), and the confidential procedures to implement such responses, are included within the Building Level Emergency Response Plans specific to each school.

Building Level Emergency Response Plans have been developed to comply with Project SAVE and updated NY Safe School initiatives to establish specific emergency response plans for each school building. These Building Level Emergency Response Plans provide detailed response procedures for each school building in the District. In contrast to this Plan, which is accessible to the public, the Building Level Plans are confidential and not subject to disclosure under Article 6 of the Public Officers Law, the Freedom of Information Act, or any other provision of law, in accordance with Education Law, Section 2801-a. Therefore, the Building Level plans provide a confidential means to outline sensitive emergency procedures not included herein.

1. POTENTIAL EMERGENCY SITES AND HAZARD IDENTIFICATION

A. MAPS AND FLOOR PLANS

Generally, the sites of potential hazards are:

- 1. Utility Shut-off (Gas, Water, and Electrical)
- 2. Chemical Storage areas
- 3. Mechanical Storage areas
- 4. Kitchen area(s)
- 5. Mechanical rooms (HVAC, etc.)
- 6. Fuel Storage tanks

The Building Level Emergency Response Plans will include map renderings and floor plans of each building. The potential hazards for each building will be clearly indicated, and are placed with appropriate agencies.

B. SURVEY OF VULNERABILITY

The buildings covered in this plan include:

- Walberta Park School: grades K – 1**
- Cherry Road Elementary School: grades 2 – 4**
- Onondaga Hill Middle School: grades 5 – 8**
- Westhill High School: grades 9 – 12**

We have surveyed sources of potential emergencies within our school buildings, grounds and community locations. Site-maps and floor plans of our buildings have been provided to local police and law enforcement but are kept confidential due to security reasons. Our instructional sites are all located within proximity to urban minor arterial roads. A survey of vulnerability is included in each building level plan.

2. STANDARD EMERGENCY RESPONSE PROCEDURES - 155.17 (c)(1)(xv)

A. GENERAL EVACUATION

Evacuations may be necessary in the event of fire, weather, and other emergency, or violent incident. Upon notification of the need to evacuate, teachers should instruct students to remain calm and quiet, and depart the building in an orderly fashion according to previously established evacuation routes, or alternate routes as instructed.

1. Building occupants will be notified to evacuate the building by one of the following means depending upon the nature of the emergency:
 - a. Fire Alarm
 - b. Carbon monoxide (CO) Alarm
 - c. Intercom System
 - d. Verbal or Written Notification
2. Upon receiving an evacuation notice, faculty and staff shall survey their areas and evacuation routes for hazards in order to ensure a safe and expeditious evacuation.
3. The normal evacuation route(s) for students, faculty and staff for each school shall be specified in the Building Level Emergency Response Plan and included in the Emergency Response Bag “Gotta Go Bag”. Normal evacuation routes will also be posted in each room.
4. Teachers are to bring their Daily Attendance Records with them. Attendance shall be taken upon evacuating and again if relocated to an alternate site. Teachers may be asked to turn in their Attendance Roster to the Building Administrator for use at the Command Post.
5. Normal evacuation routes will be used unless the emergency prevents use of exits and/or corridors. Alternate routes may be announced using the school’s intercom system. The intercom system shall not be used in situations that may endanger students/staff (e.g., barricaded gunman). In the event of power failure, the Building Administrator can direct ancillary staff to communicate alternate evacuation routes.
6. Suspicious items found must be left alone and immediately reported to the Building Administrator and/or emergency service personnel.
7. Persons evacuating should remain calm and orderly in order to prevent panic and confusion.
8. Elevators may not be used for evacuation purposes unless approved by the Building Administrator or emergency personnel.
9. All persons shall proceed to the designated Assembly Area and remain there until further notice.
10. Teachers must take attendance once in the designated Assembly Area, and are to notify the Building Administrator if a student is not present.
11. Any time teachers have to relocate their class, attendance should be taken before departure and upon arrival. If students are to be evacuated off-campus, teachers are to take attendance before students begin loading on the buses and once the buses are loaded, to assure that all students are accounted for.

Westhill Central School District
District-wide Safety Plan

STANDARD EMERGENCY RESPONSE PROCEDURES - 155.17 (c)(1)(xv) – Cont'd

12. Occasionally, there may be a need to relocate students from the Assembly Area to a predetermined Relocation Center. If evacuation is ordered beyond the Assembly Area, students will be evacuated by bus either to their homes or a safe location. The decision to evacuate the Assembly Area will be made by the Incident Commander upon consultation with the Superintendent.
13. Students will not be allowed to go home on their own, i.e., walking or in personal vehicles. A parent or a pre-arranged surrogate may sign a Student Release Form and pick up their child at the designated reunification site.
14. The School Nurse should have a medical alert list and supplies readily available at all times. For supplies not on hand, the School Nurse will be prepared to make arrangements to provide medical assistance at the relocation site or along the evacuation route as necessary in coordination with the Building Administrator and the Incident Commander.
15. Building Administrators will follow directions received from the Superintendent and/or the Incident Commander. Principals will determine when staff may be permitted to leave after their students have been safely released and they are no longer needed for emergency duties.

B. EVACUATION OF STUDENTS WITH DISABILITIES, STAFF AND FACULTY

In the event of an evacuation, special care must be taken to ensure that persons with disabilities are safely transported out of the building. Each Building Level Emergency Response Plan shall have a list of students with special needs and the persons who have been designated to assist them.

1. An Assisted Evacuation Plan is in the Building Level Emergency Response Plan. This plan should include every child or staff member who has limited mobility and will be reviewed as necessary (i.e.) when students and personnel change.
2. In case of an Emergency where evacuation or a long-term stay on-site is required, the Director of Special Education and designated staff will respond to the Relocation Center or to the designated Assembly Area to assist with students with special needs and staff who serve them.
3. If coordinated services are required from outside agencies that specialize in dealing with students with disabilities, the Director of Special Education and or designated staff will act to facilitate the use of such groups.

C. SHELTERING

Not all Emergencies will require building occupants to get out and go somewhere else. A **sheltering procedure** is appropriate for situations when it is necessary to hold students in an inside Assembly Area temporarily during an Emergency until things can be returned to normal or dismissal can be arranged. Protocols for a sheltering response for each school building are in the Building Level Emergency Response Plans. General procedures are as follows:

1. Upon receiving instruction from local, county or state governmental emergency response agencies the Superintendent shall notify the Building Administrator(s) of the need to initiate the Sheltering Plan.

Westhill Central School District
District-wide Safety Plan

STANDARD EMERGENCY RESPONSE PROCEDURES - 155.17 (c)(1)(xv) – Cont'd

2. If an incident occurs near school and the Building Administrator is the first to be informed, he or she shall make a decision, based upon the nature of the emergency or upon the direction of local emergency commanders, whether to shelter all students and staff inside the school building. The Building Administrator shall inform the Superintendent and the 911 Control Center of the determination.
3. Upon notification of an Emergency or the exercise of a drill, the Building Administrator shall instruct students and staff to report to the designated 'inside' Assembly Area. Faculty are to bring their class roster with them and maintain charge of their class in the Assembly Area unless otherwise directed.
4. During sheltering for certain types of air pollution problems, chemical spills or radiological emergencies, windows should be closed and ventilation systems and outside air intakes should be shut down.
5. The Building Administrator will assign appropriate duties to selected staff members and custodian, to include securing the building
6. Students/staff will remain inside the building until the Building Administrator is advised by the Incident Commander or Emergency Management Authorities to take further action.
7. If such procedure necessitates remaining in school after hours, the Superintendent, or designee, will issue a public notice to this effect through the local news media. Parents will be advised as to appropriate responses, including, where to sign-out their child (if appropriate). As necessary, the Superintendent will coordinate the use of district resources in cooperation with the Incident Commander and request assistance from County Emergency Management Office, the American Red Cross and other agencies as appropriate
8. The Building Administrator will keep the teaching staff, the school nurse, the custodial staff, and the cafeteria staff informed.

D. LOCKDOWN

A lockdown procedure is appropriate for situations, which mandate that students remain in one location until authorized to move. The Lockdown procedure is also detailed in the Building Emergency Response Plan. General procedures are as follows:

1. A Lockdown procedure is called when leaving or walking through the building would endanger the health and safety of the students or staff, i.e. dangerous intruder.
2. The Building Administrator or designee will apprise all building occupants of a Lockdown order using a plain language announcement. Students and staff shall remain in their classrooms or work area until the Law enforcement officials and/or Building Administrator open the door.
3. The Building Administrator will contact local 9-1-1 emergency responders and notify the Superintendent.
4. Building staff shall lock their doors and secure students out of the line of sight from the hallway.

Westhill Central School District
District-wide Safety Plan

STANDARD EMERGENCY RESPONSE PROCEDURES - 155.17 (c)(1)(xv) – Cont'd

5. Parents will be advised as to preferred responses, and are NOT to report to the school to sign out their child. The Superintendent, or designee, will provide information and updates to parents and the media at the media reception area at a predetermined location.

E. LOCKOUT

A Lockout procedure most commonly used when the incident is occurring outside the school building, on or off school property, which allows the school to continue with the normal school day, but curtails outside activity, and allows no unauthorized personnel into the building.

1. The Building Administrator, or person-in-charge, will apprise all building occupants that Lockout procedures are being implemented using a plain language announcement.
2. The Building Administrator will contact local 9-1-1 emergency responders (if not first apprised by law enforcement) and notify the Superintendent.
3. Classroom instruction can continue.
4. Students/staff who are on the school grounds are to return to the school building.
5. The building administrator will assign selected staff members and/or custodian(s) to secure the building.
6. The main entrance will be monitored. Only AUTHORIZED personnel will be allowed in the building
7. Modify normal dismissal procedures as appropriate.

F. HOLD-IN-PLACE

A Hold-In-Place procedure is most commonly used to clear hallways of students and staff in the event that emergency services or other situations require a quick response through the school. Teaching can still be conducted during this action. Staff and students will be informed Hold-In-Place via the PA announcement. The following procedures will be followed:

1. Once notified of a Hold-In-Place, staff will quickly scan the hallways for their students and bring them into the classrooms.
2. Students will quickly move to their classrooms and stay in place until further notice.
3. Staff will be notified via the PA to release students.

G. EARLY DISMISSAL

An early dismissal is appropriate in the event of a system failure, such as heating, plumbing or electrical failure, that renders the building unsuitable for instructional purposes. Early dismissal may also be a viable option for other emergency situations as decided by the Superintendent. Each Building Level Emergency Response Plan shall contain provisions on the development of a telephone tree or similar notification for communications with parents or guardians regarding the early dismissal. That information is detailed in the Building Level plans.

Westhill Central School District
District-wide Safety Plan

STANDARD EMERGENCY RESPONSE PROCEDURES - 155.17 (c)(1)(xv) – Cont'd

1. Early dismissal is available as a building evacuation option for Emergency situations as decided by the Superintendent or designee.
2. Similar to evacuation, early dismissal (or “go home”) is merely a procedure for getting students out of the building and united with their families or with responsible individuals who have been designated by the parents to care for the child in their absence.
3. Emergency contact information will be utilized to facilitate uniting students with their families or with responsible individuals who have been designated by the parents to care for the child.
4. Early dismissal will follow normal dismissal procedures unless the situation warrants otherwise. The Building Administrator or designee, as the Emergency dictates will select alternate dismissal procedures and/or loading areas.

3. IDENTIFICATION OF APPROPRIATE RESPONSES TO EMERGENCIES - 155.17 (c)(1)(xv)

A. BOMB THREATS

1. Anyone receiving a bomb threat will call the Building Administrator **and report to the Main Office**. The Building Administrator or designee will make the decision to call 9-1-1. The individual receiving the telephone threat should be present when calling 9-1-1 and/or assessing the threat to give firsthand information.
2. The Building Administrator or designee will notify the District Superintendent’s Office.
3. The Building Administrator or designee will use the PA system to request the **BUILDING RESPONSE TEAM to report to the Main Office** to assess the threat.
4. When the Building Response Team is summoned, staff should **inspect their area** for any suspicious objects. TEACHERS will do a visual inspection of their room and report anything suspicious to the Building Administrator.
DO NOT TOUCH ANY SUSPICIOUS ITEM. LEAVE THE AREA AT ONCE AND REPORT THE LOCATION/DESCRIPTION OF ITEM TO PRINCIPAL!
5. The Building Response Team (BRT) will inspect the restrooms, other unchecked areas, exits, hallways and the perimeter of the building. Suspicious objects are to be reported to the Building Administrator.
6. If no suspicious items are found, resume normal operations.

If something suspicious is found, OR if the nature and content of the threat warrants evacuation:

1. The Building Administrator or designee will order an evacuation, notify 9-1-1 Emergency Services and notify their Program Director. Building occupants will be notified to evacuate by an announcement over the PA system. Students and staff will be instructed to dress appropriately and proceed to their normal assembly points outside the building, at least 300 feet from the building, using the evacuation route posted for their room unless otherwise instructed.
2. Teachers shall take attendance cards and class lists and verify attendance after evacuation. Missing staff or students will be reported to an administrator.
3. Depending upon the nature of the threat and/or during inclement weather, the Building Response Team will assess inside evacuation areas, Evacuation Plan B or the off-campus shelter location.
4. **DO NOT RE-ENTER THE BUILDING. DO NOT LEAVE YOUR EVACUATION AREA.** The Building Administrator in concert with the on-site Incident Commander, if applicable, will notify staff when it is safe to reoccupy the building or give further instructions.

Westhill Central School District
District-wide Safety Plan

**IDENTIFICATION OF APPROPRIATE RESPONSES TO EMERGENCIES - 155.17 (c)(1)(xv) –

4. PREVENTION AND INTERVENTION STRATEGIES - 155.17 (c)(1)(iii)

The Westhill Central School District operates a number of programs, some at the District and building level, which deal with school safety officers and other security personnel, nonviolent conflict resolution training, peer mediation, and other school safety programs. These programs have specialized components to reduce and eliminate the possibility of student violence. See Section 6 for a list of intervention programs and services currently available at the Westhill Central School District:

A. STUDENT INTERVENTION PROGRAMS

1. The code of conduct prohibits bullying, intimidation and harassment. Students engaging in such behavior are dealt with immediately. Students who are victims of such behaviors are given the necessary support services and their parents are notified.
2. The students are closely monitored by trained staff and any indication of violent behavior, e.g., rumor of weapons, is immediately followed up with the involvement of local law enforcement, social services, mental health services and parents.
3. When students express any suicidal or violent intentions, the staff member alerts mental health services and parents, sometimes leading to hospitalization. Follow-up occurs on the part of the school staff/psychologists with providers of clinical psychological and/or psychiatric care.
4. When there is any suspicion of abuse, appropriate agencies are notified and investigations are initiated. Mandated reporting expectations are honored, always involving the building administrator in concert with the school social worker, school nurse or school psychologist.
5. The programs serving students that provide services include individual counseling, referrals for psychiatric evaluation and/or therapy delivered through private clinicians or the local hospital(s). Services provided by the district include social workers and/or school psychologists meeting with students and families as appropriate.

Certain procedures minimize or provide early warning of problems when unwanted persons are in a school building. The following procedures shall be implemented to improve security in the buildings include electronic security systems such as security cameras which have been upgraded to enhance school security around the exterior as well as the interior of the buildings.

A. BASIC PROCEDURES

3. Visitors are to sign out and return the pass to the office before leaving the building.
4. When parents arrive to pick up a child, they are to report to the attendance office to sign out the student. Students are to be picked up by parents in the main office. Parents are not to go to the classroom to pick up a child.
5. Visitations to classrooms for any purpose require permission from a principal in advance in order to allow teachers the opportunity to arrange their schedules to accommodate such requests.
6. All school-building personnel have the responsibility and authority to question visitors regarding their reasons for being in the building. They may ask the visitor to report to the office if they determine the reason is not legitimate.

C. STAFF RESPONSIBILITIES

1. All staff should be aware of conditions in and around the building and report anything unusual to supervisors. Staff should scan their areas before leaving at night and upon entering in the morning to check for any unusual packages or items. Anything suspicious should be reported immediately to their supervisor or immediately call law enforcement based upon a threat assessment.
2. Upon observing a dangerous or armed person, school staff are not to engage that person but immediately place the building on lockdown and call law enforcement and report their presence to the Building Administrator immediately, if possible. The Building Level Emergency Response Plans contain detailed procedures for dealing with armed or dangerous persons.

Purpose, Scope, Situation Overview, and Assumptions

Purpose

This plan has been developed in accordance with the amended New York State Labor Law section 27-c and New York State Education Law section 2801-a, as applicable. These laws were amended by the passing of legislation S8617B/A10832 signed by the Governor of New York State on September 7, 2020, requires public employers to adopt a plan for operations in the event of a declared public health emergency involving a communicable disease. The plan includes the identification of essential employees, facilitation of telecommuting for non-essential employees, provision of personal protective equipment (PPE), protocols to support contact tracing, and protocols for emergency housing.

Scope

This plan was developed exclusively for and is applicable to Westhill Central School District. This plan is pertinent to a declared public health emergency in the State of New York which may impact our operations; and it is in the interest of the safety of our employees and contractors, and the continuity of our operations that we have promulgated this plan.

Situation Overview

On March 11, 2020 the World Health Organization declared a pandemic for the novel coronavirus which causes the COVID-19 severe acute respiratory syndrome. This plan has been developed in accordance with amended laws to support continued resilience for a continuation of the spread of this disease or for other infectious diseases which may emerge and cause a declaration of a public health emergency.

The health and safety of our employees and contractors is crucial to maintaining our mission essential operations. We encourage all employees and contractors to use the Centers for Disease Control ([CDC](#)) [Guidance for Keeping Workplaces, Schools, Homes and Commercial Establishments Safe, until and unless it has been superseded by other guidance.](#)¹ The fundamentals of reducing the spread of infection include:

- Using hand sanitizer and washing hands with soap and water frequently, including:
 - After using the restroom
 - After returning from a public outing
 - After touching/disposing of garbage
 - After using public computers, touching public tables, and countertops, etc.
- Practice social distancing when possible
- If you are feeling ill or have a fever, notify your supervisor immediately and go home
- If you start to experience coughing or sneezing, step away from people and food, cough or sneeze into the crook of your arm or a tissue, the latter of which should be disposed of immediately
- Clean and disinfect workstations at the beginning, middle, and end of each shift
- Other guidance which may be published by the CDC, the NYS Department of Health, or Onondaga County Health Department.

Planning Assumptions

This plan was developed based on information, best practices, and guidance available as of the date of publication. The plan was developed with the Coronavirus pandemic in mind but will be adapted to

¹ As of the initial publication of these protocols, this document could be found at <https://www.cdc.gov/coronavirus/2019-ncov/downloads/workplace-school-and-home-guidance.pdf>

other infectious disease outbreaks as needed and/or required by the law. The District publishes these protocols based on the requirements in place at the time of its publication but recognizes it must be flexible in the time of response to a Disease. Accordingly, the protocols may be updated over time. The District will comply with all applicable local, State, and federal orders, rules, laws, and regulations (collectively, the “Authority”). To the extent the Authority conflicts with any provisions of these protocols, the District will comply with the Authority.

The following assumptions have been made in the development of this plan:

- The health and safety of our employees and contractors, and their families, is of utmost importance
- The circumstances of a public health emergency may directly impact our own operations.
- Impacts of a public health emergency will take time for us to respond to, with appropriate safety measures put into place and adjustments made to operations to maximize safety
- The public and our constituency expects us to maintain a level of mission essential operations
- Resource support from other jurisdictions may be limited based upon the level of impact the public health emergency has upon them
- Supply chains, particularly those for personal protective equipment (PPE) and cleaning supplies, may be heavily impacted, resulting in considerable delays in procurement
- The operations of other entities, including the private sector (vendors, contractors, etc.), non-profit organizations, and other governmental agencies and services may also be impacted due to the public health emergency, causing delays or other disruptions in their services
- Emergency measures and operational changes may need to be adjusted based upon the specific circumstances and impacts of the public health emergency, as well as guidance and direction from public health officials and the governor
- Per S8617B/A10832, 'essential employee' is defined as a public employee or contractor that is required to be physically present at a work site to perform their job
- Per S8617B/A10832, 'non-essential employee' is defined as a public employee or contractor that is not required to be physically present at a work site to perform their job

Concept of Operations

The Superintendent of Schools of the Westhill Central School District, their designee, or their successor holds the authority to execute and direct the implementation of this plan. Implementation, monitoring of operations, and adjustments to plan’s implementation may be supported by additional personnel, at the discretion of the Superintendent. The Superintendent will consult legal counsel for guidance regarding any executive orders, rules, laws, or regulations, as needed. A copy of the final version of this plan must be published in a clear and conspicuous location, in the employee handbook and on the District’s website.

The Superintendent of Westhill Central School District, their designee, or their successor will maintain awareness of information, direction, and guidance from public health officials and the Governor's office, directing the implementation of changes as necessary.

Upon resolution of the public health emergency, the Superintendent of Schools of the Westhill Central School District, their designee, or their successor will direct the resumption of normal operations or operations with modifications as necessary.

Westhill Central School District

Mission Essential Workers

When confronting events that disrupt normal operations, the Westhill Central School District is committed to ensuring that essential functions will be continued even under the most challenging circumstances.

Essential functions are those functions that enable an organization to:

1. Maintain the safety of employees, contractors, and our constituency
2. Provide vital services
3. Provide services required by law
4. Sustain quality operations
5. Uphold the core values of the Westhill Central School District

Essential workers must be physically present on-site to effectively operate. The table below identifies the positions or titles that are essential to be staffed on-site in the event of a state-ordered reduction of in-person workforce for the continued operation of each essential function, along with justification for their categorization. Note that there are employees who may be essential for only part of the year or during certain requirements. To the extent these exist, the District has outlined them below; however, individuals may be deemed essential as circumstances dictate and the below list is not exhaustive.

Westhill Central School District
District-wide Safety Plan

The Superintendent will have full discretion to deem any employee essential, and access to building and grounds as necessary. This chart and determinations can be used as a guideline for any future communicable disease outbreaks.

Reducing Risk Through Remote Work and Staggered Shifts

Through assigning certain staff to work remotely and by staggering work shifts, we can decrease crowding and density at work sites and on school transportation. Below is a description of how the District will, to the extent possible, (1) stagger work shifts of essential employees and contractors in order to reduce overcrowding on school transportation systems and at worksites, and (2) enable all non-essential employees and contractors to telecommute including, but not limited to: facilitating or requesting the procurement, distribution, downloading and installation of any needed devices or technology, including software, data, office laptops or cell phones, and the transferring of office phone lines to work or personal cell phones as practicable or applicable to the workplace.

Remote Work Protocols

Non-essential employees and contractors able to accomplish their functions remotely will be enabled to do so at the greatest extent possible. Working remotely requires:

1. Identification of staff who will work remotely
2. Approval and assignment of remote work
3. Equipping staff for remote work, which may include:
 - a. Internet capable laptop
 - b. Necessary peripherals
 - c. Access to VPN and/or secure network drives
 - d. Access to software and databases necessary to perform their duties
 - e. A solution for telephone communications: As practicable, the District shall transfer office phone lines to non-essential employees' cell phones. To the extent any employee has administrative support to answer phone lines, this will be maintained through the use of transferring lines as well.

Building principals will generally be responsible for the accountability of staff performing remote duties.

Distribution and installation of devices or technology (including downloading and installation of any software, data, office laptops or cell phones) shall be coordinated by and through the director of educational technology to:

1. Manage the district's work order system to triage outages and issues;
2. Provide prior approval and inventory of instructional software;
3. Provide support and training for remote instruction;
4. Prepare employees to work remotely before a disease is recognized – i.e., setting up capability during initial onboarding and working with existing staff to update capabilities.

Procurement

The District will abide by all state requirements for the procurement of any supplies or items required to facilitate telecommuting for employees and contractors.

Westhill Central School District
District-wide Safety Plan

Staggered Shifts

The District recognizes that, although employees and contractors labeled as essential must be physically present at the worksite to perform their duties, the hours in which they must be at the worksite will not be identical. Below is a description of how the District will, to the extent possible, stagger work shifts of essential employees and contractors in order to reduce overcrowding on public transportation systems and at worksites.

Implementing staggered shifts may be possible for personnel performing duties which are necessary to be performed on-site but perhaps less sensitive to being accomplished only within core business hours. As possible, management will identify opportunities for staff to work outside core business hours as a strategy of limiting exposure. Regardless of changes in start and end times of shifts, the Westhill Central School District will ensure that employees are provided with their typical or contracted minimum work hours per week. Staggering shifts requires:

1. Identification of positions for which work hours will be staggered
2. Approval and assignment of changed work hours

Upon designation of a disease under these protocols, within five (5) business days the immediate supervisor of each essential employee and/or contractor shall determine the hours during which each essential employee and contractor must be present and the worksite at which the employee or contractor is to be present. To the extent possible, the supervisor shall identify flexibility within these hours and locations. Following this identification for all employees and contractors, the supervisor must submit the list of hours and locations required to the Superintendent of Schools (or their identified designee) for their review.

Upon receipt of the list of hours and locations for each employee and contractor, the Superintendent or their designee will, in turn, review the list and promulgate precise hours for each employee and contractor, adjusting hours as possible to reduce an influx of employees and contractors arriving at similar times to similar locations. The goal of the Superintendent or their designee's oversight is to stagger work shifts and locations to reduce overcrowding. The Superintendent or their designee must not adjust any hours contractually agreed upon within a collective bargaining agreement or employment contract, unless agreed to through a Memorandum of Understanding with all applicable parties. Upon any adjustment or approval of the hours and locations provided to the Superintendent/their designee, the Superintendent or their designee will provide a list of approved information to the immediate supervisor of each essential worker or contractor, and will keep such list in the business office for purposes of implementation of the remainder of these protocols, including disinfection and contact tracing.

Personal Protective Equipment

The use of personal protective equipment (PPE) to reduce the spread of infectious disease is important to supporting the health and safety of our employees and contractors. The identification of PPE shall be determined based on the nature of the communicable disease at hand and may include:

- Face masks (i.e., disposable surgical masks)
- Fit tested respirator masks (N-95 or cartridge style)
- Face shields
- Gloves

Westhill Central School District
District-wide Safety Plan

- Disposable gowns and aprons
- Eye protection
- Sneeze guards

Note that while cleaning supplies are not PPE, there is a related need for cleaning supplies used to sanitize surfaces, as well as hand soap and hand sanitizer. The Coronavirus pandemic demonstrated that supply chains were not able to keep up with increased demand for these products early in the pandemic. As such, we are including these supplies in this section as they are pertinent to protecting the health and safety of our employees and contractors.

Protocols for providing PPE include the following:

1. Identification of need for PPE based upon job duties and work location
 - a. PPE is assigned to staff based on job duty, special need or as assigned by supervisor or physician request.
2. Procurement of PPE
 - a. As specified in the amended law, public employers must be able to provide at least two pieces of each required type of PPE to each essential employee and contractor during any given work shift for at least six months. *(or will be supplied periodically through their supervisor as needed/requested).*
 - b. Public employers must be able to mitigate supply chain disruptions to meet this requirement
 - i. PPE will be procured primarily by the buildings and grounds department or other department(s) as recommended in guidance set forth by the CDC, NYS DOH or Onondaga County DOH.
 - ii. Procurement quantities will be based on recommendations from agencies mentioned above.
 - iii. District will secure multiple vendors for each product so that a constant supply can be maintained during time of high need and limited availability.
3. Storage of, access to, and monitoring of PPE stock
 - a. PPE must be stored in a central location in a manner which will prevent degradation
 - b. Each building will have a designated person(s) responsible for maintaining a limited supply of PPE that's available for immediate distribution.
 - c. The supply of PPE will be monitored to ensure integrity and to track usage rates
 - i. All requests for distribution of PPE are completed through the district's work order management system which tracks shipments to buildings and also help monitor inventory levels.
 - ii. The District will continuously monitor the physical inventory of all PPE and cleaning related products.
 - iii. Minimum quantity thresholds are currently being developed for purposes of replenishment; thresholds are based on the usage trends created during the first several months of school activity.
4. Deployment of available PPE:
 - a. Available quantities and descriptions for use are provided as follows:

Westhill Central School District

Staff Exposures, Cleaning, and Disinfection

Staff Exposures

This section outlines the protocols the District will follow in the event an employee or contractor (1) is exposed to a known case of the communicable disease that is the subject of the public health emergency; (2) exhibits symptoms of such Disease; or (3) tests positive for such Disease. These protocols are aimed to prevent the spread or contraction of the Disease in the workplace. They specifically detail the actions to be taken to immediately and thoroughly disinfect the work area of any employee or contractor known or suspected to be infected with the Disease as well as any common area surface and shared equipment such employee or contractor may have touched, and the employer policy on available leave in the event of the need of an employee to receive testing, treatment, isolation, or quarantine.

The District's protocols will not violate any existing federal, state, or local law, including those regarding sick leave or health information privacy.

Staff exposures are organized under several categories based upon the type of exposure and presence of symptoms. The Superintendent of Schools, will be responsible for ensuring these protocols are followed. Following CDC guidelines, we have established the following protocols:

- A. If employees or contractors are exposed to a known case of communicable disease that is the subject of the public health emergency they must, as soon as practicable, notify their immediate supervisor regarding the exposure. Their immediate supervisor will, in turn, report the exposure to the Superintendent of Schools, or their designee. They must not be present at the worksite after their notification of exposure and until cleared by a medical professional in accordance with any CDC, State or County Department of Health guidelines.
 1. Potentially exposed employees or contractors who do not have symptoms should remain at home or in a comparable setting and practice social distancing per current CDC/public health guidance for the communicable disease in question.
 - a. As possible, these employees will be permitted to work remotely during this period of time if they are not ill.
 - b. See the section titled Documentation of Work Hours and Locations for additional information on contact tracing
 2. CDC, New York State Department of Health, and Onondaga County Health Department guidelines for COVID-19 provide that critical essential employees may be permitted to continue work following potential exposure, provided they remain symptom-free and additional precautions are taken to protect them, other employees and contractors, and our constituency/public. As with all exposed employees, they must, as soon as practicable, notify their immediate supervisor regarding the exposure. Their immediate supervisor will, in turn, report the exposure to the Superintendent of Schools.

Westhill Central School District
District-wide Safety Plan

- a. Additional precautions will include the requirement of the subject employee or contractor, as well as others working in their proximity, to wear appropriate PPE at all times to limit the potential of transmission.
 - b. In-person interactions with the subject employee or contractor will be limited as much as possible.
 - c. Work areas in which the subject employee or contractor are present will be disinfected according to current CDC, New York State Department of Health, and Onondaga County Health Department public health protocol at least every hour, as practical. See the section on Cleaning and Disinfection for additional information on that subject.
 - d. If at any time they exhibit symptoms, refer to item B below.
- B. If an employee or contractor exhibits symptoms of the communicable disease that is the subject of the public health emergency, they must disclose they are experiencing a symptom to their immediate supervisor, who shall, in turn, notify the Superintendent of Schools, or their designee, who will ensure these protocols are followed.
1. Employees and contractors who exhibit symptoms in the workplace should be immediately separated from other employees, customers, and visitors. They must immediately disclose they are experiencing a symptom to their immediate supervisor, remove themselves from the workplace (or be removed with assistance from medical personnel, if necessary), and be instructed to remain home and contact their physician.
 2. Employees and contractors who exhibit symptoms outside of work should notify their supervisor and stay home, with a recommendation to contact their physician.
 3. Employees should not return to work until they have met the criteria to discontinue home isolation per CDC, State or County Department of Health public health guidance and have consulted with a healthcare provider.
- C. If an employee or contractor has tested positive for the communicable disease that is the subject of the public health emergency:
1. Apply the steps identified in item B, above, as applicable.
 2. Areas occupied for prolonged periods of time by the subject employee or contractor will be closed off.
 - a. CDC, New York State Department of Health, and Onondaga County Health Department guidance for COVID-19 indicates that a period of 24 hours is ideally given before cleaning, disinfecting, and reoccupation of those spaces will take place. If this time period is not possible, a period of as long as possible will be given. CDC, New York State Department of Health, and Onondaga County Health Department public health guidance for the disease in question will be followed.
 - b. Any common areas entered, surfaces touched, or equipment used shall be cleaned and disinfected immediately.
 - c. See the section on Cleaning and Disinfection for additional information on that subject.
 3. Identification of potential employee and contractor exposures will be conducted. The District will work with the local and State Health Department, as applicable, and their school physician to determine necessary contact tracing for those other employees, contractors and individuals who may have had contact with an individual who was exposed or tested positive, along with that individual's exclusion from the worksite.

Westhill Central School District
District-wide Safety Plan

Confidentiality shall be maintained as required by the Americans with Disabilities Act (ADA).

- a. Employees or contractors excluded from the worksite should not return to the worksite until they have been cleared by their immediate supervisor to do so. To the extent they can continue to effectively work remotely in the interim, they should.
- b. Apply the steps identified in item A, above, as applicable, for all potentially exposed personnel.

We recognize there may be nuances or complexities associated with potential exposures, close contacts, symptomatic persons, and those testing positive. We will follow CDC, New York State Department of Health, and Onondaga County Health Department public health recommendations and requirements and coordinate with our local public health office for additional guidance and support as needed.

Cleaning and Disinfecting

CDC/public health guidelines will be followed for cleaning and disinfection of surfaces/areas. Present guidance for routine cleaning during a public health emergency includes:

1. As possible, employees and contractors will clean their own workspaces in the beginning, middle, and end of their shifts, at a minimum.
 - a. High traffic/high touch areas and areas which are accessible to the public/constituents will be disinfected at least hourly.
 - b. Building Custodians are responsible for cleaning common areas; these areas should be addressed on a daily basis – but more frequently as function and events warrant.
2. Staff tasked with cleaning and disinfecting areas will be issued and required to wear PPE appropriate to the task.
3. Soiled surfaces will be cleaned with soap and water before being disinfected.
4. Disinfection will occur in accordance with any current guidance promulgated by the CDC and State Department of Health. If such guidance is not available or provided specific to the Disease, at a minimum, surfaces will be disinfected with products that meet EPA criteria for use against the virus in question and which are appropriate for that surface, and access to those areas will be prevented until such disinfection has occurred.
5. Staff will follow instructions of cleaning products to ensure safe and effective use of the products.

Disinfection

The Superintendent of Schools shall assemble a disinfection team to be charged with the disinfection of worksites and common areas during the time covered under these Protocols. The disinfection team will be comprised of the following individuals: supervisor of buildings and grounds, custodian II, custodian I and custodial worker I. Should a member of the disinfection team request additional protective material, the Superintendent of Schools should endeavor to honor such requests so long as they are not unreasonable or inappropriate in light of the circumstances.

The disinfection team will be charged with:

1. Routine disinfection of all worksites in the District;
2. Routine disinfection of common areas in the District, targeting high-traffic areas; and
3. Targeted cleanings of workspaces belonging to individuals who were exposed or tested positive to the Disease.

Westhill Central School District
District-wide Safety Plan

Immediately after an employee or contractor who is known or suspected to be infected with the Disease notifies their supervisor of such suspicion or infection, the supervisor shall notify the disinfection team to disinfect the following: (1) the worksite of the employee or contractor; (2) any common area surface the employee/contractor may have touched; (3) any shared equipment the employee/contractor may have touched; and any other particular areas the employee or contractor or their supervisor identifies.

During the COVID-19 pandemic, the CDC and New York State Department of Health recommended the following, which the District incorporates into these Protocols unless updated by forthcoming guidance:

1. Closing off areas used by a sick person and not using these areas until after cleaning and disinfection has occurred;
2. Opening outside doors and windows to increase air circulation in the area.
3. Waiting at least twenty-four (24) hours before cleaning and disinfection. If waiting twenty-four (24) hours is not feasible, waiting as long as possible;
4. Cleaning and disinfecting all areas used by the person suspected or confirmed to have the Disease, such as offices, classrooms, bathrooms, lockers, and common areas.
5. Individuals, without close or proximate contact with the person suspected or confirmed to have the Disease, can return to the area and resume school activities immediately after cleaning and disinfection.

Employee and Contractor Leave

Public health emergencies are extenuating and unanticipated circumstances in which the District is committed to reducing the burden on our employees and contractors. The District shall comply with applicable collective bargaining agreements as well as state and federal laws and regulations related to employee leave. This policy may be altered based upon changes in law or regulation, as applicable.

Additional provisions may be enacted based upon need and the guidance and requirements in place by federal and state employment laws, FMLA, executive orders, and other potential sources.

Contractors, either independent or affiliated with a contracted firm, are not classified as employees of the District, and as such are not provided with paid leave time by the District unless required by law.

Documentation of Work Hours and Locations

In a public health emergency, it may be necessary to document work hours and locations of each employee and contractor to support contact tracing efforts. Identification of locations shall include on-site work, off-site visits.

This information may be used by Westhill Central School District to support contact tracing within the organization and may be shared with local public health officials. The use of electronic “Work-Logs” will be employed to document work-hours and activities during scheduled work shifts while working remotely or on specific projects. These logs will be shared or managed by principals and supervisors periodically. The logs will be used as the basis (1) to perform contact tracing for exposed employees and contractors, (2) to outline the provision of any benefits which may be available to certain employees and contractors because of potential exposure.

Housing for Essential Employees

There are circumstances within a public health emergency when it may be prudent to have essential employees lodged in such a manner which will help prevent the spread of the subject communicable

Westhill Central School District
District-wide Safety Plan

disease to protect these employees from potential exposures, thus helping to ensure their health and safety and the continuity of Westhill Central School District's essential operations.

The District will work with its locality to identify sites for emergency housing for essential employees in order to further contain the spread of the communicable disease that is the subject of the declared emergency.

If such a need arises, hotel rooms are expected to be the most viable option. If hotel rooms are for some reason deemed not practical or ideal, or if there are no hotel rooms available, Westhill Central School District will coordinate with the Onondaga County Emergency Management Office to help identify and arrange for these housing needs. The Superintendent of Schools, or his designee, will coordinate this.

APPENDIX J

Emergency Remote Instruction Plan

Introduction

The Westhill Central School District developed the following Emergency Remote Instruction Plan to address the instruction of students if there are extenuating circumstances preventing students and staff from physically attending school. The Emergency Remote Instruction Plan meets the requirements of New York State Commissioner’s Regulations for inclusion in the 2023-2024 District-Wide School Safety plan.

Beginning with the 2023-2024 school year, all public-school districts and boards of cooperative educational services (BOCES) must develop a plan that addresses six different regulatory components related to how they will provide remote instruction under emergency conditions. These Emergency Remote Instruction Plans (ERI Plans) will serve to ensure that there is a common understanding about remote instruction amongst district or BOCES staff, teachers, families, and students. ERI Plans must include the methods by which districts and BOCES will ensure the availability of devices and internet access, provision of special education and related services for students with disabilities, and the expectations for time spent in different remote modalities, should an emergency require the district or BOCES to transition to remote instruction.

REMOTE INSTRUCTION

The Commissioner's regulations define remote instruction as “instruction provided by an appropriately certified teacher, or in the case of a charter school an otherwise qualified teacher pursuant to Education Law §2854(3)(a-1), who is not in the same in-person physical location as the student(s) receiving the instruction, where there is regular and substantive daily interaction between the student and teacher.” For the purpose of this plan, remote instruction means the instruction occurring when the student and the instructor are in different locations due to the closure of one or more of the district's school buildings due to emergency conditions as determined by the Superintendent of Schools. Emergency conditions include, but are not limited to, extraordinary adverse weather conditions, impairment of heating facilities, insufficient water supply, prolonged disruption of electrical power, shortage of fuel, destruction of a school building, shortage of transportation vehicles, or a communicable disease outbreak, and the school district would otherwise close due to such an emergency.

Westhill Central School District Emergency Closure Remote Learning

Plan Procedures to ensure that devices are made available

The District has in inventory or deployed at a minimum one mobile computing device per student at all times. This device is located either in a cart in the student's primary classroom or assigned to the student depending on grade level. Devices assigned to students can regularly be transported to and from school by the student. Devices assigned to carts would be sent home with students in the event of a need. For

Westhill Central School District
District-wide Safety Plan

students who are unable to take home a device, the district will provide devices centrally or via the school.

Information regarding a "take-home" event or centralized deployment would be shared via the district's website, ParentSquare, and email.

Devices will be repaired or replaced through a variety of methods including via the normal repair process at the student's home school, drop-off events and if conditions require; the use of touch-free lockers for drop-off and pickup.

Procedures to ensure internet connectivity

The district provides mobile hotspots/mifis for students who have expressed a need for internet access at home. The district also maintains partnerships with local government and community organizations and allows for the connection of district devices to their networks.

Expectations for synchronous and asynchronous instruction Terms:

Asynchronous Learning (AL): Learning experiences that the student would be expected to engage in that will not involve live, real-time interaction with the teacher. Asynchronous learning experiences may take the form of a pre-recorded video of the teacher providing direct instruction, a video of another teacher (WCSD or otherwise) teaching a skill, a link to an article for a student to read and respond to, a math or science problem set to solved or investigated. Materials would be submitted to the teacher or staff member for feedback.

Synchronous Learning (SL): Learning experiences that involve live, real-time interaction with the teacher. Synchronous learning may be used, among other things, for large groups, small groups, and/or individualized direct instruction, collaborative discussions, writing conferences, intervention services, student assistance, and community building/social-emotional learning experiences.

Personalized Coaching/Tutoring (PC): Learning experiences in which a teacher takes the opportunity to check in with students that may not have engaged synchronously for instruction. This is an opportunity for teachers and staff to conduct mental health check-ins, provide diagnostic and progress monitoring assessments to determine growth, and provide personalized tutoring for students to address any opportunity gaps as it relates to students meeting grade-level standards.

In the case of needing to utilize remote education due to a health crisis or any exceptional disaster, the following expectations will go forth for remote education:

K - 2:

With the understanding that screen time can have detrimental effects on a child, students in kindergarten through grade 2 would be expected to have synchronous learning during the AM, each day except Wednesdays. On Wednesdays, teachers and staff would engage in professional learning in the morning, but ensure that there are asynchronous items available for each student via Google Classroom. During the afternoon, teachers will have a list of students that they will check in on and provide personalized tutoring or instruction for students. Students will be engaged in asynchronous instruction, which could be a combination of grade-level work packets and/or items that are found on Google Classroom.

PM	Remote (AL/PC)	Remote (AL/PC)	Remote (AL/PC)	Remote (AL/PC)	Remote (AL/PC)

3 - 6:

Students in grades 3-6 would be expected to engage in synchronous learning for 75% of the school day, with ¼ of the school day being asynchronous. This provides opportunities for students to have time away from the screen, as well as allows teachers to provide personalized coaching/tutoring for students to address opportunity gaps with students not yet meeting grade-level standards. During this time, teachers and staff would assist with also check-in with students that may have been absent from synchronous learning or addressing any mental health needs.

7 - 12:

Students in grades 7 - 12 would follow their schedule with the majority of their day being engaged synchronously. There could be time during the classroom schedule in which teachers can/may provide asynchronous work, but it would not be more than ½ of any classroom period. On Wednesdays, teachers have the option of providing ¼ instruction, while using the other ¾ of the classroom to provide tutoring or personalized check-ins with students to ensure positive mental health and to assist with bridging the opportunity gaps for students not yet meeting grade-level/subject-level standards.

Day/Time	Monday	Tuesday	Wednesday	Thursday	Friday

Teachers will all utilize the WCSD adopted teaching and learning framework and guidance.

In the case of needing to utilize remote education due to a health crisis or any exceptional disaster, the following expectations will go forth for remote education as it pertains to students without access or limited access to technology:

Westhill Central School District
District-wide Safety Plan

- All students would receive one device to engage with instruction
- Upon request, students would receive a MIFI device to ensure connectivity to the internet
- Students with broken devices would continue to be able to access all assignments on Google Classroom. All work would be available via paper and would be accepted for credit just as electronically submitted assignments.
- Home school assistants and parent liaisons at both the school and district-level will assist with the delivery and drop off of materials. Together, social workers, school counselors, and related service providers will assist with attendance and the continuous delivery of service for students with individualized education plans.

Plan for Students with Disabilities

Special Education Teacher who provide direct/indirect consultant services:

It is the Case Manager’s responsibility to create individualized distance learning plans for each student on their caseload in collaboration with parent(s) or guardian(s).

- Determine the tool for home collaboration with parent
- Determine parents’ preferred activities for engaging their child at home.
- Review the current IEP goals and make a determination about the level of direct instruction.
- Document using Distance Learning Plan form. Case manager will upload Distance

Learning Plan to Google Drive and share through Google with all providers who work directly with the student or provide therapy. Case Manager will upload Distance Learning Plan to Frontline IEP’s Document Repository. Document parent contact in “Attendance Actions” in PowerSchool.
